

Matias Nahuel Murua Martinez

QA ENGINEER / MANUAL & AUTOMATION TESTING

Software Engineer and QA professional with 4+ years of experience in e-commerce, SaaS platforms, telecommunications, and enterprise dashboards. I uncover product risk early and connect requirements with clear evidence across web, API, integration, and database layers.

CORDOBA, ARGENTINA / REMOTE: ARGENTINA · LATAM · INTERNATIONAL

PROFESSIONAL FOCUS

FUNCTIONAL QUALITY	AUTOMATION	API & DATA
Functional, exploratory, regression, smoke, integration, E2E, UAT, requirements analysis, acceptance criteria, and risk-based testing.	Cypress, JavaScript, Selenium WebDriver, Python, Behave, Cucumber, Page Object Model, and data-driven testing.	Postman, Newman, REST APIs, Oracle SQL, DBeaver, and validation between UI, service, and database layers.

HOW I WORK

01 UNDERSTAND	Analyze requirements, business rules, users, acceptance criteria, and risk.
02 DESIGN	Build test scenarios, cases, data, scope, and traceability around critical behavior.
03 VALIDATE	Execute exploratory and repeatable checks across UI, APIs, integrations, and data.
04 COMMUNICATE	Report defects with evidence, clarify impact, retest fixes, and inform release decisions.
